

CEO Action for Racial Equity | Fellows List

[CEO Action for Diversity & Inclusion™](#) (CEO Action) has always been driven by the belief that when businesses work collectively to drive progress, we can truly harness lasting change. For over three years, this coalition of CEOs and university presidents has worked to advance diversity and inclusion in the workplace.

Over the past few months, there has been greater awareness of deeply-rooted societal systemic racism, compelling us to do outside of our organizations. Through CEO Action for Racial Equity, we created a fellowship that provides the opportunity for CEO Action signatories to advance racial equity through public policy.

Representing more than 100 CEO Action signatory organizations, fellows will identify, develop and promote scalable and sustainable public policies and corporate engagement strategies to address systemic racism and social injustice, and improve societal well-being.

Fellows will use their diverse experiences, skill sets and perspectives to help bridge gaps, collaborate and facilitate change at multiple levels of policy from the local, state and federal level.

Driving back to the north star of CEO Action, diversity and inclusion is a societal issue, not a competitive one, and so we are coming together to collectively take action. While CEO Action CEOs are focusing on creating more inclusive workplaces, the fellows are focusing on advancing equity for the communities where we live and serve.
